

The complexity of medical billing and coding leads to an **excessive amount of errors from both HCPs and payers** that result in a loss of medical dollars and extreme frustration in the healthcare system. In an attempt to manage medical drug spend and to accurately report rebates, more and more **payers are enforcing an NDC mandate**.

## Do you or your Health Plan currently require NDCs on your drug claims?

RJ Health, an MMIT company, conducted two surveys, in 2016 and 2021, on NDC mandates and how organizations are managing them.

## QUESTIONS ANSWERED

- Yes
- No, Planning to Implement
- No, Not Planning to Implement
- Do Not Know
- N/A
- Do Not Do This
- External Vendor
- Health Plan System

If you currently require NDCs, **do you validate and pend or deny the claim** if the NDC is inaccurate?

If you currently require NDCs, **do you validate the submitted HCPCS units** are converted accurately for the submitted NDC?

Who performs **validation of NDCs, maintaining crosswalks, or validation of NDC** unit conversions between NDCs and HCPCS?

Connect with us to learn how to stay current with payer and reimbursement trends with **ReimbursementCodes**.
