RC Claim Assist

HCPCS/CPT to NDC Crosswalk and Billable Unit Solutions

Billing at the NDC unit is becoming the new standard. Providers are often unclear about the process and many office teams are simply trying to understand how NDC coding is applied.

RC Claim Assist gives payors the educational tools, with functionality that providers need, to avoid the incorrect submission of claims. Give your providers an intuitive and fast method to correctly code for medical benefit pharmacy claims.

Support your provider network.

Supports development and compliance of NDC billing policy and guidelines.

Reduces number of claims requiring reprocessing and aids in appeals management.
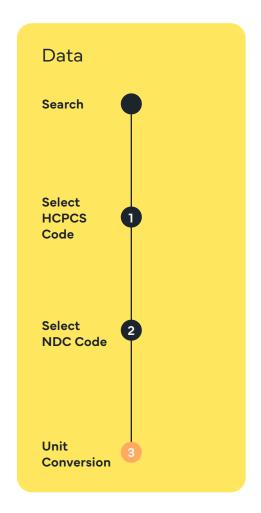

Provides a comprehensive crosswalk of HCPCS/CPT® drug codes, product names and NDCs.

Backed by the trusted data of ReimbursementCodes from RJ Health.

The Industry Standard in Medical Drug Coding and Pricing Information

Data

Search ●

Select HCPCS Code ①

Select NDC Code ②

Unit Conversion ③

Technology

- Search the entire RJ Health dataset by HCPCS/CPT®, NDC and Drug Name

- NDC results are easily sorted, filtered or directly accessible (by search) to ensure accurate selection for billing units

- RJ Health's complete code, NDC crosswalk and conversion data enables a one-click calculation

Insight

- Enhance claim accuracy, improve appropriate Code to NDC Mapping and reduce risk of appeals

- Realize operational efficiencies through the ability to access (24/7), interact with and manipulate medically covered drug detail, coding crosswalk, data

Our data is designed to guide consistent decision-making and transparency around claims and reimbursement. We work with our clients to decrease claim processing time, automate coding and billing, and provide a source of truth for medical drug pricing intelligence.
